

Sample README File for Journal Supplemental Materials

If multiple Supplemental Material files accompany a journal article, authors may choose to include an ASCII README file to describe the contents.

=====README.TXT=====

ARTICLE INFORMATION

Journal name:

Authors and Title:

DEPOSIT INFORMATION

Total No. of Files:

Description: Briefly describe the types of files and how they relate to the article content.

Special Instructions: Include special download instructions, software, and/or hardware required to access the files, if applicable.

Filenames: List each file by name and include a short, descriptive caption.

Contact Information: Include an e-mail address or other method of contact if you wish readers to be able to contact the authors.
